

North American Panerai Classic Yachts Challenge

Notice of Series

Amendment #2

Paragraph 7.4 and 7.8 changes as follows:

7.4 Should any regatta elect to include a spinnaker class/classes, in addition to the non-spinnaker classes outlined in this document, the normalized scores for the spinnaker classes will be included in NA PCYC Series and event scoring provided all other elements of the divisional eligibility requirements are met. ***When both a spinnaker and non-spinnaker choice is offered, the regatta winner for any of Panerai's five classes will be the yacht with the lowest normalized score based on the number of finishers in the class. However, all entries will be scored for the Series per 7.8***

7.8 ***For Series calculations,*** all classes ***including spin and non spin classes*** shall be scored regardless of the number of entries, however, no fewer than five will be calculated in any class size for normalization methods. (IE a class size of 3 will be scored as if there were 5 entries)

8/17/16

Note:

Amendment #2 will only impact regattas with spin and non/spin divisions, and in no way impacts the Marblehead results or the series calculations.
