

PUERTO VALLARTA 2018

Amendment #1 to the SAILING INSTRUCTIONS

A) **Sailing Instruction 1.5, add 1.5.1 as follows:**

Each boat's YB Tracker shall be installed according to the YB Mounting Guide (SI Addendum #1) and located on or near the stern pulpit of the boat. See YB mounting guide.

Reason for change:

This defines the location for each tracker to be installed, and directs competitors to the YB Mounting Guide.

B) **Sailing Instruction 11.3, is deleted and replaced with the following:**

A boat's YB Tracker will transmit hourly position reports with a 4 hour delay. The YB Tracker will transmit a lat/lon and PST time when it crosses the finish line. This data will be used to determine a boat's finish time. [NP/DP]

Reason for change:

This corrects the sailing instruction to accurately reflect the comm plan for the YB Trackers, which will not switch to "Live" view near the finish.

C) **Sailing Instruction 12.1 is changed to read:**

In addition to the data provided by the YB Tracker, all boats are required to document the moment they cross the finish line with a legible photo or screen shot of navigation equipment showing finish time (generated from GPS in Pacific ~~Daylight~~ Standard Time), and finish lat/lon of their vessel as proof of time/location of their estimation of finish.

Reason for change:

This corrects the reference to the time zone offset for Pacific Time zone from 'Daylight' to 'Standard'.
